Planning Timeline

Building a Network

Light Rail

Frequent

Frequent Express

Express

Local service

Alternative services

Input from cities
and the public

Draft Preliminary
Concept

Jurisdiction Input

- Transit Master Plans
- Comprehensive and Land Use Plans
- City staff
- Elected officials

Jurisdiction Input

- Improve connections to centers and high capacity transit services
- Increase access to park-and-rides
- More investment in alternative services, for low density and hard-to-serve areas
- More east-west connectivity
- Frequent service key for areas with growth
- Express service from more rural cities

Draft Preliminary Concept

- Countywide, 70% of people and 82% of jobs are within ½ mile of frequent service
- Countywide, 87% of transit users are expected to reach transit by biking or walking
- Countywide transit trips increase 125% with an increase in service hours of 66%

Mobility: How far you get on transit

Current Network: Noon at Redmond TC

2040 Network: Noon at Redmond TC

Travel shed (minutes)

15 30 45 60

Capital Expenditures

Capital to Enable Basic Operation

- Fleet
- Bases
- State of good repair

Capital to Enhance Service Delivery

- Managing public right of way
- Facilities that increase access to transit
- Technology
